The Remuneration Committee shall also monitor and evaluate ongoing and completed programs during the year for variable remuneration to the Company's management and to monitor and evaluate the implementation of the guidelines for remuneration to senior executives which the annual shareholders' meeting has adopted. For 2016 the maximum variable remuneration to the CEO and senior executives was calculated at the highest approximately SEK 1.3 million including social security contributions. During 2016 variable remuneration of approximately SEK 0.8 million including social security contributions has been paid to the CEO and senior executives.

### **2. REPORT**

- 2.1. In accordance with rule 10.3 of the Swedish Corporate Governance Code, the board hereby gives the following report on the results of the evaluation performed by the Remuneration Committee. The report covers the period after 20 April 2016 when the annual shareholders' meeting adopted the current guidelines for remuneration to the CEO and senior executives.
- 2.2. The Remuneration Committee has evaluated the guidelines from the previous annual shareholders' meeting and their application as well as the present remuneration structures and remuneration levels for the CEO and senior executives. The Remuneration Committee has found that the guidelines have enabled the Company to attract and retain competent senior executives. The guidelines have furthermore contributed to keep the remuneration for the CEO and senior executives well-balanced. The guidelines have been applied properly and without any deviations, and the Remuneration Committee is of the opinion that the guidelines effectively have fulfilled their purpose and that the current remuneration structures and remuneration levels for the CEO and senior executives are reasonable and well-functioning. The Remuneration Committee has therefore

recommended the board to propose for the annual shareholders' meeting of 2017 to adopt substantially unchanged remuneration guidelines.
